Midwest Chapter

Spring 2016 Newsletter

President's Message Jeff Rozelle, CRB

Fellow ISPE Midwest Chapter Members,

I wanted to extend a warm welcome to the new and returning members of the ISPE Midwest Chapter and update everybody on the exciting things we have planned for 2016!

Special thanks goes to Eric Danielson for his continued leadership as ISPE Midwest Chapter President for the past two years as we transitioned chapter management. I also appreciate the support that the board of directors has provided in the planning of the great events that we had over the past year that included a beautiful day of golf in St. Louis, Tech-Ed Day at Arrowhead followed by BBQ tailgating and watching the 2015 World Series Champs!

The new Officers, Board of Directors and Chapter Manager for 2016 with contact information are included in this newsletter. Feel free to reach out to any of us if you have suggestions, comments or ideas for getting the most value out of your membership.

With renewed energy and commitment from the board, we are focusing our efforts to improve communication and involvement across our large geographic market. For 2016, we have identified the following events that provide educational content and networking opportunities across our region. We look forward to seeing you at some of these events in the coming year!

- May 19 - Tech-Ed Day, St. Louis**
- June/July - Dinner Event, Minneapolis**
- August 25 - Golf Tournament, Kansas City**
- October - Dinner Event/Plant Tour, Lincoln**
- December - Dinner Event, St. Louis**

More information on these events will be provided in the near future and can also be found online at <http://www.ispe.org/midwest-chapter>. Thanks to each and every one of you for the support that you have provided the Chapter over the years. I look forward to seeing you soon at the next chapter event!

Jeff Rozelle

Midwest Chapter Regional Event

GBA Presentation & Top Golf

ISPE Midwest Chapter had its first event of the year in Overland Park at the Topgolf facility. On Thursday, March 3rd, forty members met for dinner and a presentation by Sandra Bachamp and Shane Newman of GBA.

Shane and Sandra explained the use of Computational Fluid Dynamics (CFD) simulation software in the design of clean rooms. The presentation was well received and educational, providing real world examples that addressed risk analysis and cost benefit justification.

Afterwards, the friendly staff at Topgolf opened the doors to the golf facility and provided instruction on the various games available. Topgolf has created a series of games that are a combination of bowling, darts and golf. The skill levels ranged from novices to golf pros. The games create ways to even the playing field and fun was had by all.

ISPE student chapters are established to introduce students to the variety of majors which are relevant to careers in the Pharmaceutical and Biotechnology fields which they may not have considered before.

ISPE student members are very important. They are the future of the industry and ISPE as a society. We are currently expanding our student chapters to community colleges and universities around our region.

If you are interested in supporting student chapters in your area, speaking at student chapter meetings, hosting facility tours for students and members, or provide employment and learning opportunities through a student internship, please contact **Tiffany Coleman, Midwest Chapter Secretary, at 816-210-7076.**
